- Physics-4
- ICT-4

WORK EXPERIENCE

Programmer / System Analyst
Jenus Technologies

05/2021 - Present   *Nicosia, Cyprus*

Achievements/Tasks

- Primary responsibilities include system analysis and design, expanding and testing existing systems, developing flowcharts, and data modeling. I also focus on software development and enhancement, application control and upgrades, problem-solving, and providing technical support.

Lifeguard
Municipal Swimming Pool

05/2019 - 08/2019   *Nicosia*
Largest pool in Nicosia

Achievements/Tasks

- Performed a life-saving CPR intervention. A man, Mr. Vorkan, was found unconscious at the bottom of a pool. After being rescued by others, I administered 31 chest compressions, successfully reviving him. This critical experience demonstrated my ability to remain calm and perform effectively under intense pressure.
- I have developed the leader spirit over my job there as i had to take action, fast and efficient. I lead a team of 5 and carried out all the important actions that needed to be done in order to save that person in the incident above.

Mandatory Military Service
Black Berret Corporal/Cyprus National Guard

07/2014 - 07/2016   *Nicosia*

Achievements/Tasks

- Discipline, Mental Strength & Reasoning.

Technical Assistance
NexTech

06/2014 - 07/2014   *Nicosia*

Achievements/Tasks

- Computers set up, programming softwares, troubleshooting minor technical problems.
- Maintaining department database records and serving as a laison between sales representatives and Technical Department.
- Performed a variety of internet research functions and used word processing spredsheets and presentation software.

CERTIFICATES

Silver Medal (05/2018 - 05/2020)
Lifeguard professional
